

LUKA JOVIĆ

2D Animator & Game Artist

PROFILE

I am a 2D Animator and Game Artist at Excellent Reel, specializing in Spine animation, character rigging, and visual effects for slot games.

I hold a degree in Electrical Engineering and Computer Science from Alfa BK University and have over five years of experience in web design, primarily working as a freelancer.

My background combines technical knowledge with creativity, allowing me to approach every project with precision and attention to detail. I am passionate about bringing ideas to life through animation and continuously developing my skills.
